

TEMASEK

So every **Generation** prospers

TOWARDS 2030

We are charting a steady course for the decade ahead anchored around a strong sense of purpose, culture and values

Resilient & Forward Looking Portfolio

Sustainability at the Core

Organisation, Talent & Capabilities

Our three growth engines

Comprising our **Investment, Partnership, and Development** initiatives, we are building these growth engines to achieve our 2030 goals

Investment Engine

To deliver sustainable returns over the long term

Growing our Global Portfolio

Catalysing Innovation with Early Stage Investments

Partnering Local Companies in their Transformation Journeys

Driven by our views of the **trends shaping societies**, we invest today with tomorrow in mind

Digitisation

Future of Consumption

Sustainable Living

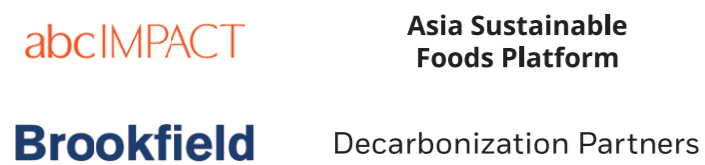

Longer Lifespans

Partnership Engine

To scale capital through partnerships

Solutions Platforms

Asset Management Businesses

Development Engine

To identify and build capabilities

AI & Digitisation

Blockchain

Cybersecurity

Sustainable Solutions

ENABLING A Better World

As a Trusted Steward, we have a constitutional responsibility to safeguard our past reserves.

We also do good and contribute to the well-being of every generation

TEMASEK TRUST

Oversees the financial management and **sustainable disbursements** of philanthropic gifts from Temasek. It also aims to **pioneer and enable new pathways** for philanthropy in Asia

TEMASEK SHOPHOUSE

A social impact hub that encourages, enhances, and elevates initiatives for the **common good**

Over 90 events hosted onsite covering meaningful topics such as sustainability and mental health

TEMASEK FOUNDATION

COVID-19 Initiatives

Distributed oximeters, mouth gargles and oxygen concentrators through various COVID-19 initiatives in Singapore and beyond

TEMASEK LIFESCIENCES LABORATORY

Disruptive and Sustainable Technologies for Agricultural Precision Programme

Partnering with MIT to develop sensor technologies for the digitalisation of food production

Mandai NATURE

Coffee and Primate Conservation Project

Helping to conserve habitats and provide alternate livelihoods for local communities in Indonesia

STEWARDSHIP ASIA

Stewardship Principles for Responsible Investors

Engaging stakeholders on practices and actions associated to investment stewardship

F.A.C.E. Programme

Using AI to analyse facial expressions to support the mental health of seniors

Mosquito Reproduction Research Programme

Developing methods to suppress mosquito population and mitigate local mosquito-borne diseases

Conservation Efforts for the Roti Snake-necked Turtle

Working with Wildlife Conservation Society Indonesia Programme on species protection, habitat selection and community engagement

Stewardship Advantage

An executive education programme jointly designed with SMU
